

DANSK VARMBLOD

DANISH WARMBLOOD NADWA-INSPECTION

15. oktober – 22. oktober 2024

FROM FOALS TO WORLD CHAMPIONS

DANSK VARMBLOD

WELCOME AT OUR 2024 INSPECTION TOUR IN THE UNITED STATES!

Our team of judges look forward to seeing breeders, owners, riders, and hosts on the many inspection farms throughout North America during these 10 days in October.

DANSK VARMBLOD would like to thank all our kind hosts at the US inspection tour 2024.

Especially we thank The North American Danish Warmblood Association (NADWA) and the people behind the organization.

The team of judges are
Johnny Hansen and Signe Wiese

SØBAKKEHUS MISS MALFOY: Dressagemare of the Year 2024.

CI CI SENJOR ASK: Stallion of the Year 2024.

KAMAR'S BREXIT: Champion of the 2024 Danish Warmblood Foal Championships

LIST OF SHOW GROUNDS

DATE	LOCATION
October 15th	Sycamore Station
October 17th	Bay of Plenty Stables
October 18th	Andreasen Warmbloods
October 19th	Copper Hill
October 20th	Haras De Vess Dressage Stables
October 21th	Lynden Equine
October 22nd	Janicki Dressage

VERY IMPORTANT!

If you are participating with a horse for grading or riding test, please remember to hand over the original horse passport and/or registration papers to the officials on the day of inspection, as the paperwork regarding the grading depends on the authorities in Denmark having these.

DWB Horses shown on frontpage:

QUINN G: 6 y/o World Young Horse Champion at the 2024 World Championships for young dressage horses in Ermelo.

CHACCO RITA ASK: 5 y/o finalist at the FEI WBFSH Jumping World Breeding Championship for Young Horses 2024 in Zangersheide.

HARMILLY D: Goldmedalist individual and for teams for 5 y/o horses at WBFSH Studbooks Jumping Global Champions Trophy in Valkenswaard 2024.

WENDY DE FONTAINE: Team gold and individual silver at the Paris 2024 Olympics and current leader of the FEI World Ranking Dressage.

BREEDING POLICY AND BREEDING OBJECTIVE OF DANSK VARMBLOD HISTORY

With horse breeding being one of the traditional activities of Danish agriculture, Dansk Varmblod was based on strong relations and high standards of the Danish farmers when it was officially founded in 1979. A group of breeders wanted to change the existing breedstock into modern riding horses. Their aim was pursued by crossing Europe's best bloodlines in a system of hard selection. In quite a short period of time a population of refined, leggy riding horses true to type and with a beautiful expression was created – and the trade mark of Dansk Varmblod ever after had seen the light.

SPECIALISED BREEDING

The original breeding objective of Dansk Varmblod was all-round horses that could excel at both dressage and showjumping competitions. But in 2004 it was decided to specialise the breed and radical changes were made in the selection system. These changes comprise for instance that dressage horses were no longer tested in freejumping, because selection for improved jumping skills was proven to have a negative influence on walk and trot. Likewise, the judging of walk and trot was no longer a part of the evaluation of jumpers.

BREEDING OBJECTIVE

A refined, leggy, and supple riding horse with high ridability and a strong health. It has capacity in either showjumping or dressage to compete at international level.

A VISIONARY BREED SOCIETY

Dansk Varmblod is known to be visionary and adaptable to changes ~ two contributory factors in the society now being one of the leading sport horse breeding associations in the world. Breeding policy and objective are adjusted continuously to the needs of the consumers, this being the fact again in 2012. Longevity is one of the traits that Dansk Varmblod wants to focus more on in future. Therefore, a unique co-operation with equine veterinarians on registration of diseases has been launched. In 2014 Dansk Varmblod introduced linear scoring to obtain an increasingly objective, systematic, and informative evaluation of the breedstock. At the same time the implementation of genomic selection is proceeding which in turn will add to the increasing safety in the breeding work and speed up the progress of the breed as well as shorten the generation interval.

HOW DANSK VARMBLOD ACHIEVES ITS GOAL:

- Dansk Varmblod focuses in a goal-oriented way on specialized dressage and showjumping horses with the aim to produce internationally successful top athletes
- Strong selection of the Danish breeding stock is carried out and only the very best individuals from competing breed societies are approved for breeding
- For a young colt to have access to the selection system all individuals of at least 4 generations of his pedigree must have been judged by a recognised sport horse stud-book team of judges. Dam and granddam must have scores that qualify them at least for the DWB mare studbook. Mares must likewise have 3 generations of gradings in order to have access to the main studbook
- No stallions are approved for breeding before they have passed an approved performance test. This assures that only stallions with very high rideability and good functionality sires the next generation
- Mares must pass a riding test to be selected for the Elite Mare Show and to become a potential stallion mother
- Dansk Varmblod is approved by the Danish Ministry of Agriculture and thereby also by EU. Keeping of studbook is maintained, like in the case of most other horse breeds registered in Denmark, by SEGES, the Danish Agricultural Advisory Centre, Dept. Horses. Every objective information regarding each individual horse is found in a central horse database, leaving this a valuable tool for the breeders
- Dansk Varmblod calculates breeding evaluations based on conformation, riding tests, young horse championships and results from competitions
- Dansk Varmblod attaches great importance to international co-operation and exchanging of experience. This is for instance assured through membership of WBFSH (World Breeding Federation for Sport Horses). WBFSH is a world-wide association of sport horse breed societies. Since 2000 the presidency and the WBFSH head office have been managed by Dansk Varmblod.

THE LOGO OF DANSK VARMBLOD

The crown and the wave

The Danish Warmblood brand – a crown over a wave – symbolises a kingdom surrounded by water. The logo was originally designed by the well-known silver smith and designer Georg Jensen.

TAKEN FROM THE RULES OF MARE GRADING:

Grading includes a description of the mare's conformation and movement.

Besides, the following individual scores are given for:

1. Type and body shape
2. Head and neck
3. Shoulder and withers
4. Top line and quarters
5. Front legs
6. Hind legs
7. Walk (not mares tested in free-jumping)
8. Trot (not mares tested in free-jumping)
9. Canter
10. General impression

And only mares tested in free-jumping: Technique and scope when free-jumping

A scale of scores from 0 to 10 is used where 10 is the highest score. Half scores can be given.
