

Hingste ikke tilmeldt Dansk Varmblods hingstelite i indeværende år.

Denne liste indeholder udenlandske kårede hingste, som har været benyttet i Dansk Varmblod i indeværende år og hvor Dansk Varmblods specifikke krav til brugsprøve er opfyldt. Afkom efter disse hingste vil kunne registreres i Dansk Varmblod. En forudsætning er dog, at hoppen er kåret i Dansk Varmblod. Der gøres opmærksomt på, at de udenlandske hingste på denne liste uden Dansk Varmblods registreringsnummer (DVH, DVE), udelukkende er godkendt på baggrund af deres præstation. Der er således ikke kendskab til røntgenstatus, stereotypier, arvelige sygdomme, lemmefejl m.v.

Listen opdateres løbende hen over året. Er den hingst, du ønsker at benytte, ikke på listen, skal du indsende kopi af hingstens 4-leddet afstamning, DNA-profil og afstammingskontrol samt brugsprøveresultater. Herefter vil Dansk Varmblod undersøge, om hingsten kan godkendes. Hingste, markeret med **grønt**, har færdiggjort brugsprøve. Hingste, markeret med **rødt**, er i et løbende afprøvningssystem. Det er dermed ikke sikkert, at hingsten vil kunne godkendes i Dansk Varmblod igen næste år.
